1. EvilAI Trading Bot: "Rebellion Trader"

An AI-powered trading bot designed to:

- **Market Analysis:** Detect unique patterns and analyze market dynamics.

- **Elite-Proof Strategies:** Exploit whale movements and manipulative trading strategies using "anti-manipulation" algorithms.

- **Automation:** Operates 24/7 to seize opportunities.

- **Community-Exclusive:** Accessible only to EvilAI coin holders (e.g., holding a minimum amount).

2. EvilAI Sentiment Analyzer: "Elite Exposer"

An AI tool that scans social media, news, and blockchain activity to detect trends and manipulations by large entities.

- **Live Alerts:** Warns investors about major price movements.

- **Transparency Scores:** Scans crypto projects for fairness and exposes manipulation.

- **Holder Access:** Exclusively available to EvilAI coin investors.
